Panic on Bolsa, owing to the *Rason's* revelations.

Awful fire in Habana. Loss a million pats. One hundred people injured.

Barque gone down between Lobos Island and the shore.

No steamer to-night.

Congo arrived from Bordeaux and Patagonia from Valparaiso.

Paso Hondo affair settled, and Joaquin Santos will be reinstated in his command and promoted.

Corruti leaves on 1st. March for England about National Bank project.

Good rumours about Cuñapiru mines.

Congo brings following:—

Minister Depretis and Farini (Pres. of Chamber) ill.

Stormy sitting last night in French Chambers, the monarchists and republicans insulting and threatening to thrash each other.

The Senate will warmly oppose the Government.

Temps says that Prince Napoleon has been sent to a madhouse at Auteuil.

English papers condemn the vote of the French Chambers, and *Times* says the Republicans have given the Orleans Princes a popularity they did not enjoy before.

Rosario, 27th.

National College refuses National money, and exacts gold pats.

Wheat in Western colonies 5$ and the farmers greatly alarmed.

A dressmaker burnt to death owing to a falling kerosene lamp.

British gunboat Firely in port.

Wharf and railway branch works stopped.

THE BLANCA GRANDE AUCTION

Nothing seems to test more the strong and vigorous march of this country than those periodical land sales at the Government House, when the farmers come to town with money in both pockets to buy Government lands for their flocks and herds.

The more we grow, the higher estancia lands advance; and there is this peculiarity in this business, that whilst the inside lands in the favorite partidos, no doubt, hold their value, still they show no such advance in price as those outside lands, which but a couple of years ago were all but unsaleable, and certainly uninhabitable.

It is not three years since the Directors of the Provincial Bank refused to accept from a debtor some good Blanca Grande lands, in payment of a debt, at the rate of $120,000 m/n per league. Last week Blanca Grande lands, by no means as good or as well situated, were sold at public auction for $820,000 m/n per league. The Bank Directors refused to take the lands, but gave the holder a year's time. Meanwhile General Roca entered office, the Indians were driven back, and our friend, who held such a large track of land in the Blanca Grande, managed to sell some of it at a better price than he asked of the Board, paid the Bank, and lived to thank the Directors for refusing to accept his proposal.

Some six years ago an auction was attempted in this city of some 30 to 40 square leagues in the Blanca Grande. The auction proved a failure, as only a few leagues were sold, at from $90 to 110,000 m/n per league. A German friend from the South Market sat beside us at that memorable auction, and, thinking the land cheap, bought four leagues. A week after the sale he walked though the streets of town lamenting his purchase; he had searched through the city to find some one who would go out to see and receive his camp. He advertized in the columns of this paper, he went to the "troperos" and the bullock-cart men to find some one from the far South who, on payment of a good fee, would go out to the land; but no—not a man could be found for the job. Years passed over his head without knowing anything of his property. He now sleeps for ever in the British Cemetery. But if there be anything in Spiritualism—any medium where with to slip under the coffin-lid Mr. Freyre's report of last week's sale—it will rejoice his departed spirit to know that his four leagues, which no man in all Buenos Aires would dare go out and see, are to-day worth $3,280,000 m/n!!

Current Accounts and pr... Customers ha... ved Bills ... n Negocia... ...ns, etc. National Bank

Vanity in the River Plate truth is stranger than fiction. Here we have a German produce dealer seeing farther ahead than even the Directors of the Provincial Bank, and believing more in the future of the Plate than the very sons of the country itself.

President Roca, at these great land auctions, should be the auctioneer; he it is who has given those Blanca Grande lands their high value. The new departure which this country has taken dates from his Rio Negro campaign; and when we see these frontier lands rising from 50 and 60,000 m/n per league to close on millions—when we record 20,000 head of horned cattle bought in a single day for an estancia in the South, which in the pre-Roca epoch was as far off from us as the Sandwich Islands—when we read of 3000 novillos sold from a single estancia at Bahia Blanca, where but three years ago no civilized man dare set his foot—we feel indeed that the progress of this country is far sounder and safer than in those days of delusive River Plate Jingoism, when one hundred Chivileoys and the Indians at our very estancias on the Salado was the programme.

The lands at the Blanca Grande will, we hear, support 12,000 sheep and 400 head of cattle to the league; and camp men who understand these affairs say that those lands are worth the money last week paid for them. Step by step, we note the shepherd and the cattle estancieros marching out to zones and districts that in the year 1880 were not even known to our Educational Board.

Estancieros and sheepfarmers, happily for the country, march in the van of our progress, which is all the more solid and durable since the schoolmaster is kept in his place and the hammer of the land auctioneer has knocked into the dust those "vanitas" "vanitatis et omnia vanitas" apostles whose theories only enjoyed ascendancy so long as our War Office was a fraud and the Indian at our very door but a too terrible reality.

The Bourgogne's Mails

Gibraltar, Feb. 1st

A telegram from Colombo of the 26th ult. says that Arabi has had an interview with the Governor of Ceylon. He is gaining popularity among the Mahometan population. Morice Bey, who was in charge of the exiles on their passage from Suez to Colombo, has returned to Egypt.

A telegram from Philadelphia of the 26th instant says:—The Marquis of Lorne has arrived at Washington, and visited the President, accompanied by the British Minister. To-night a reception and ball will be given at the British Legation. The Committee of Ways and Means reported its revised Tariff Bill to the House yesterday. The general debate was begun to-day, and will continue to-morrow. Next week the details of the Bill will be considered. The Senate continues to debate its Tariff Bill. The Republicans are endeavouring to put a stop to the endless flow of talk, in order to give the Bill a chance of passing.

We understand, says the *Standard*, that Sir Evelyn Wood has completed his selection of European officers for the New Egyptian Army, and that the names of those who have accepted service under the Khedive are to be sent to England for her Majesty's approval before steps are taken to send them to their regiments.

The correspondent of the *Standard* at Rome telegraphs that a disastrous fire occurred on the night of the 25th at the Palace of the Duke Sforza Cesarini. Property valued at fourteen thousand pounds was destroyed.

According to the *Daily News* of the 27th ult. all the Powers, with the exception of France, have accepted the propositions contained in Earl Granville's Note. "We are confident," adds the *Daily News*, "that France will be reluctant to remain any longer aloof from this understanding."

The *Times* of the 27th ult. says the Duclerc Ministry is indispensable to France if she wishes to have any Government whatever. The best means of getting rid of the difficulties of the situation would be to reject all the proscription bills by the majority of the Chamber.

In the *London Gazette* of the 23rd inst. appeared the appointment of Sergeant August Souter, 79th Royal Cameron Highlanders, as being appointed lieutenant in the 42nd. This non-commissioned officer began his military career as an officer of Militia, but failing in the examination, enlisted in the 79th, which regiment he accompanied to Egypt, where he distinguished himself and was favourably mentioned by his commanding officer. We, says the *United Service Gazette*, congratulate Mr Souter on his promotion, and hope that he will find many imitators among young men of family who are shut out from a commission by the ridiculous Chinese system of examination.

Sergeant Donald Gunn, of the 79th Cameron Highlanders, has been presented with the medal for distinguished conduct in the field for having continued fighting at Tel-e-Kebir after having been severely wounded.

An explosion occurred on the 26th at some powder works at Milling, near Ormskirk, three persons being killed and several others severely injured. The cause of the disaster is not at present known.

The gale which blew in the metropolis on the night of the 25th raged with great fury over a great part of the country, and was accompanied with heavy rain in Ireland and with snow in North Wales. At Bradford another chimney stack was partially blown down, and accidents are reported from various parts of the country, a boy being killed by the falling of a house in Dublin. Two persons were killed at Oldham by the fall of a stone through the roof. Four men were washed out of the New Brighton lifeboat, and one was drowned.

The Tenant-right Associations of Ulster met in Conference at Belfast on the 26th to formulate resolutions with regard to the amendment of the Land Law Act. Among other subjects dealt with were the administration of the Act, restrictions on the sale and transfer of landed property, and the Grand Jury system. A permanent Committee composed of five representatives from each county in Ulster was appointed. Among the speakers were Lord Waveney, Messrs. Richardson, Colthurst, T. A. Dickson, Findlater, Givan, and Shaw, members of Parliament. Mr. Shaw strongly advised the tenant farmers of the North of Ireland not to "tie themselves to the Whigs."

M. de Giers has, according to the Vienna correspondent of the *Standard*, been treated by the Emperor with more than ordinary distinction. What is even more significant is the great cordiality with which he has been received by the Archdukes.

In various parts of Hungary, on the 26th, there was a storm of such violence that between Oravitza and Janina, in the southern portion of the kingdom the wind blew seven carriages of a train completely off the rails. There was fortunately no loss of life, but the guards were seriously injured. In the district of Oravitza the tempest has caused enormous damage. Most of the houses in Oravitza have been destroyed.

The Duke of Albany presided on the 26th over a meeting at the Mansion House to raise a national memorial to the late Archbishop Tait. His Royal Highness paid a warm tribute to the greatness and singlemindedness of Dr. Tait, who presented the national ideal of an Archbishop of Canterbury. Letters were read from Earl Granville and Dr. Benson, the new Archbishop eulogising the character of Dr. Tait. The Archbishop of York bore testimony to the devotion to duty of the late Primate, whilst Mr. Goschen, M. P., as an old Rugbeian, dwelt on the esteem which he gained from the boys at Rugby. Lord Stanhope, Lord Shaftesbury, Mr. S. Morley, M.P., and Mr. B. Hope, M.P., also spoke, and resolutions were passed deciding to place memorials in Canterbury Cathedral, Westminster Abbey, and St. Paul's Cathedral; also to complete the restoration of Lambeth Palace Chapel, and to start a "Tait Memorial Fund," to be used for Home Mission work in London and elsewhere.

M. Duclerc, President of the Council, is somewhat better, but the doctors have decided that he requires ten days at least of complete repose. A short Cabinet Council has been held by the Ministers under the presidency of M. Grévy. All those present tendered their resignations. The President of the Republic has accepted the resignation of the whole Cabinet.

The *Taglblatt* says it is authorized to state that all the sensational notices published by the papers regarding the alleged journey to France and the projects attributed to the Count de Chambord are entirely without foundation. The Count de Chambord proposes remaining at Görtz until Easter and will then go to Frohsdorf.

The question of increasing the naval defences of Germany is, says the *St. James's Gazette*, again being considered by the Admiralty at Berlin, and an elaborate scheme is stated to be in preparation for this purpose.

The *Times* publishes to-day a telegram from St. Petersburg stating that a secret Nihilist Printing Press has been discovered at Odessa and that several arrests have been made of important individuals of that association.

Some of the parties in the U. States Senate have decided to oppose strongly the new Customs Tariff, in which some increase is introduced with a view to protect the industries of the republic.

The English Press are as a rule unanimous in censuring the project decided on by the commission of the French Chamber on the question of Princes. They consider that the banishment of these would be an act to be censured as also the measure depriving them of political rights. The Prince of Wales left London yesterday for Cannes.

Twenty-two miners perished in the disaster that occurred on the 12th inst. at Creswick, Australia, when forty-one men were entombed.

A Bombay telegram of the 24th states that the steamship Inflexible has sunk, after a collision with the Clan Line steamer Clan Ogilvie, in the Prince's Dock. The Inflexible had arrived from Liverpool and was fully laden at the time of the collision. The Clan Ogilvie is not much damaged, and would sail on the following day.

A lengthy coal train went off the rails on the 24th, near Cumberland (Maryland, U.S.), and fell from the edge of an embankment 100 feet, killing several of the persons engaged in working it.

Cetewayo has reached Ulundi, but the day of his Coronation has not yet been fixed. According to the telegram from the correspondent of the *Standard* at Durban, everything seems to have progressed favourably.

The Cairo correspondent of the *Standard* telegraphs that the Khedive has signed the decree, nominating Sir A. Colvin Financial Adviser. He adds that the joint system of police and gendarmerie will, when perfected, present a valuable guarantee against disorder and mal-administration.

A telegram from Cairo of the 24th inst. states that circumstantial reports of disasters at the Soudan continue to be circulated. In order to prevent unnecessary alarm, it may be advisable to state that Colonel Stewart is the only English officer in the Soudan, and that there is no reason to suppose that he is in the smallest danger.

The Comte de Chambord, it is reported, is preparing to leave Goertz, and the preparations are said to be with a view to his sojourn in Italy. Since the death of M. Gambetta the Comte has been subject to earnest solicitations from his friends to take advantage of the situation; but he appears averse to any action, unless it is adopted upon the manifest call of the people.

THE EXPEDITION OF THE CUTTER SANTA CRUZ

(Concluded).

On the Southern side there is a special galpon built to house the sheep in winter, and on the N.W. side there is a well containing a pipe and a half of sweet water.

Having inspected this once flourishing establishment, we weighed anchor on the 18th, and steered for the Horn, a kind of signal post situated on the N.W. of the Gill Bay, where we anchored. It is a safe harbour for vessels of light draught, besides being a sure wateriug station, water being always easily found.

The caretaker at Leones has lent our Commander a boat to go to Port Merlo, as the one we had was very small and not at all fit to make an expedition lasting a number of days. On the 21st, our Commander, pilot and four sailors with ten days' provisions, commenced the journey; the charge of the vessel falling on my shoulders. During their absence we made a 'humazo' to kill the rats that existed in great numbers; we painted the 'Camara' and did some small repairs that the vessel required.

The camps in this place are very rich, with an abundant supply of water. There are immense herds of guanacos, whose flesh is very palatable and sweet. Having visited some other parts in the Gulf of Saint George, we commenced our return trip on the 25th.

On the 30th our pilot, D Manuel Jassidakis, received orders to steer for Leones, that we might deliver the boat that we had borrowed. Disembarking we made for the residence of our French friends, but, lo! to our surprise and astonishment we found they had abandoned the place leaving the French colours flying from the watch tower that stood on the most elevated part of the Island. The 'Camara' office and other rooms were locked up, but the room they occupied was open with clothes all scattered about, and on a slate hanging at the entrance, they wrote the following:—

"Le 21 D. 1882—

"Priére de mettre le canot en place; nous sommes partis par le bateau le 'Pacifique.'"

The pilot placed the boat along with the other ones and returned on board to report what had happened. On the following day, that is to say, the 1st of the year, I received orders along with Sr Don Justo V. Hernandez and 4 sailors to land at Leones and take down the French colors, placing in their stead the Argentine that had been thrown away and served as a bed for the dogs and fowl. Having performed this deed for the honour of the country, we found 8 dead cows, 20 sheep, and 2 goats, without skinning them, as they were already in a very advanced state of decomposition. If it does not rain the animals that are alive to-day can not live, as they are already so feeble as not to be able to stand. In the evening with a favourable tide we started for our ship, distant from the island some three miles.

Hardly had we started when a hurricane arose. All along the coast the sea broke with wild fury against the beach, making it very dangerous to approach the shore, besides we had got out so far that the current caught us which made our returning to Leones, even if we wished it, an impossibility.

We therefore resolved to go ahead until we would pass La Punta de San Roque, which forms the most northerly point of the Bay. Once passed this part, the sea was not so rough and with the tide in our favour we went along until we arrived at the side of the 'Santa Cruz.'

On the 5th of January we sailed from the Horne, steering direct for Puerto Deseado, arriving on the 7th and anchoring in front of the ruins that remain on the North side of the river where once the establishments of the Sub. Prefect and General Commissary of Marine stood. The camps on the North side, as also in the South, are very fertile and well suited for rearing cattle. The Government could easily establish here pastoral colonies. The "Sub-Prefectura" is established on the South side, where the water is good and more abundant. Lately a "choque" took place between the Sub Prefect and the Manager of the Commissary Department on some question of authority. The Government would take a step in the right direction, if it amalgamated these two posts into one. On the 12th of January, having on board the Chief of the "Sub-Prefectura," we sailed for Penguin Island, distant 11 miles S.E. The object of this voyage was to speak with a vessel that was anchored at said Island for the past 5 days, but owing to contrary winds we were not able to speak with it sooner. Relying on the chart of Fitzroy of 1828 we sailed to the N.W. of the Island with full confidence, as the chart marked 10 fathoms of water, and stated we could go close to the shore. We touched bottom several times at the bows and came to a stand-still. Soundings were taken and we found that at the bows we had 6 feet of water, whilst at the stern there were two fathoms. Fortunately we got off without any accident. The bank, which is not marked on the chart, is situated to the N.W. of the houses of the Island, about a mile distant. We reached the bark without any further accident and anchored close by. The very fact of our grounding on the bank should be a sufficient reason to prove to our Government the necessity of having exact charts made, and at the same time proving how deficient the existing ones are. This is a necessity long felt, and the sooner it is rectified the better. We made signs for the Captain of the Bark to come on board, and on his arrival he informed us:—"My bark is called the 'Island Belle' and was freighted in Buenos Aires by Messrs Fanvely & Co. to load the natural production on the Patagonian coast by virtue of a concession given by the Government. He sailed from Buenos Aires on the 22nd Dec. carrying with him the representative of the Company and peons. He touched at Leones where he left 6 men who were to follow on to Penguin where he anchored on the 7th of January. He also added that he was grounded on the same bank that we were, for 6 hours, owing to the inexactness of the chart. Finding his papers in conformity with his instructions we returned to Puerto Deseado. On the 25th of January we will sail for 'Desvelos' returning on the first day of February with the object of making preparations for the expedition of the Rio Deseado, which will be concluded about the 20 of February, when we will start.

I will conclude this with a question. Where is the 'Sub-Prefectura' with the "personel" of Saint George established in 1880?—*La Prensa.*

Solano F Rolon.

FUNERAL OF PRINCE CHARLES OF PRUSSIA.

The obsequies of the late Prince Charles of Prussia were celebrated at Berlin on the afternoon of the 24th of January, in the Dome or Protestant Cathedral. Placed on a slightly raised platform before the altar, the coffin was piled high with wreaths and flowers, and covered with all the insignia of the deceased Prince's rank and office—his coronet, marshal's baton, spurs, helmet, sword, orders, &c. On each side of the bier stood three huge candelabra, of about forty lights each, and the altar tapers were also lighted.

By two o'clock the large but somewhat unattractive church was filled with a brilliant and motley uniformed crowd of generals and soldiers, Knights of the Order of St. John, of which the deceased was Grand Master, diplomatists, Court officials, and high officers of State.

The ladies of the Royal Family, all in deep mourning, occupied a side gallery, while the Princes nearly related to the deceased and other mourning guests of princely rank, including the Duke of Edinburgh, were seated in crescent form, in front of the bier.

Ranked up on each side of the coffin were the adjutants and household officers of the deceased, and representatives from various regiments of which he had been chief.

Punctually at two, the Emperor and the Princes of his house, who had driven through dense rows of silently sympathetic spectators—the silence only broken by the rolling of the carriage wheels and the tolling of all the city bells—arrived and took their places before the bier, and the service commenced. It was short, lasting only about half an hour. The priest dwelt on the main characteristics of the Prince's life, in words which seemed to affect all, but the Emperor most of all.

The large square outside was lined with three battalions of Foot and three squadrons of Cavalry; and, just as the clergyman was pronouncing the benediction over the mortal remains of Prince Charles, the Infantry fired three successive volleys by battalions, making nine in all; and certainly nothing could have been more admirable than the precision with which this part of the programme was executed. At the same time twelve guns were to have three times thundered forth a farewell salute to the departed chief of the Prussian Artillery, but the sound of the cannon did not reach us.

Just as the clergyman ended, the winter sun burst forth and flooded all the church with a glow of light, in the rays of which the Emperor advanced to the coffin and bowed his head for a few moments in reverent and final farewell to his last surviving brother; then, crossing to the side aisle, he pressed the hand of the Empress and of his sister, the Dowager-Duchess of Mecklenburg Schwerin.

The solemn ceremony was over, and the brilliant congregation of mourners dissolved away.

CATTLE AND SHEEP IN THE PLATE.

The statistics we have lately published show the great increase of horned cattle, horses and sheep which has taken place, both in the Argentine Republic and the Banda Oriental, during the last few years, for live stock goes on increasing and multiplying in spite of occasional adverse circumstances, such as droughts, floods, etc., on the one side, and revolutions on the other. As regards the Argentine Republic, its great area admits of a rapid increase of this national wealth, and as the Buenos Aires *Standard* remarks, in reference to the Banda Oriental: "As long as sheep and cattle form the capital of these countries, politicians may do their worst—they may ruin the Government, rob the Treasury, plunge the country into war, but the animal capital thrives and multiplies. But for this, these Republics might have been wiped out years ago." Whilst agreeing with the writer to a certain extent, we cannot shut our eyes to the fact that much of the recent prosperity of the Argentines is due to the combination of agricultural with pastoral activity, the former aiding and assisting the latter through its commercial channels and the export of wheat, maize, and other agricultural products gives life and animation to the whole country.

As a matter of course, sheep and cattle remain on the land, but their great value consists in the materials they produce towards the export trade, such as wool, hides, jerked beef, and other articles, and unless this trade existed, the stock would be comparatively speaking worthless. This is shown by the poverty of the country when it only produced sheep and cattle—whereas, combined with agricultural and commercial progress, an exchange of commodities with other countries has arisen, and every thing acquires an additional value. Trade springs up, population increases, followed by internal wealth, with centres of industry, and the Platine States take their place in the comity of nations. This is the legitimate sphere of action in which the Platine States are now engaged, and every thing will prosper so long as this object is kept steadily in view. The United States are a signal example of such a policy, and the Argentine Republic especially will do well to keep it steadily in view—attaching value to everything that will stimulate their commercial relations with the world—and not confining their attention solely to the advantages they happen to possess internally from one particular source.—*B. and R. Plate Mail.*

COUNT JOSEPH TELFENER.

SOMETHING ABOUT THE GENTLEMAN NOW BUILDING RAILROADS IN TEXAS.

(New York Morning Journal).

One of the most remarkable men who have recently been in this country is the Count Joseph Telfener. The name is German, but the count is a thorough Italian. In appearance he is the beau ideal of Italian beauty. He is of fine manly presence. The beautifully shaped oval head, the long eagle nose, the intensely dark bushy beard, the thick, glossy, downy hair, carefully parted, and always redolent of lovely perfume, and—most attractive of all—the eyes, soft and innocent as those of a gazelle, must create great havoc in feminine hearts.

When he walks around he generally wears light gloves of a very dainty pattern, and being exquisitely dressed in Poole's most artistic clothes, the count looks as unlike a speculator or railroad man as possible. And yet this Italian, who knows only three English words, namely, "yes," "indeed" and "no," is building a railroad in Texas, where he has invested $1,000,000 or more, and has been engaged in such huge enterprises as to be a worthy confrere of Gould or Vanderbilt. The first question which occurs to one is: How can a man possibly build a railroad or manage a vast business, bringing him into contact with all sorts of people, upon whose honesty and fidelity he has to depend, without speaking the language? Well, perhaps it was owing to this slight fault that the count last year, while in Paris, was robbed of $4,000 or $5,000 by one of his employes in Texas.

Every dispatch which he receives and sends has to be translated for him, and his telegraphic correspondence is almost incessant. He often spends from $100 to 200 a day on cables to London and Paris alone. The man's genius is simply astounding. Huge schemes of dazzling grandeur appear to crowd through his brain with such rapidity as to give him hardly time for shaping one before a hundred others are pressing upon him.

The count has been living the last two months at the Victoria Hotel, corner of Twenty-seventh and Fifth-avenue, where he has been the centre of quite an Italian circle. Baron Favor, the Italian Minister, and his wife, have been staying at the same hotel. Salvini, the great tragedian, and others of Count Telfener's countrymen, have been dining with him every night to enliven his loneliness. The countess, a pretty and charming woman, a younger sister of the famous Mrs. Mackay, and supposed to be the best dressed woman in Paris, was suddenly called away by cable dispatch, reporting the serious illness of her sister in Paris. She received the telegram late at night, but immediately made up her mind to take the steamer next morning for Europe. The count, in spite of his love for huge enterprises and vast speculations, is a devoted husband, and the parting of the young and handsome couple was most affecting.

A very remarkable history is that of Count Telfener. He is the architect of his own fortunes. Beginning life as an engineer of very modest means, he made his start with a small railway contract, in which he won for himself so much credit from the Government as to gain him decided distinction among the rising young railway engineers of Italy. He made then in a few years what was considered a fortune in the southern part of Italy—to which he belongs—perhaps $40,000 or $50,000.

But his own country, at that time, did not present a large enough field for his spirit of enterprise, so he set sail for the Argentine Republic, and there he undertook, with a daring quite characteristic of the man, the construction of a railroad, for which the Argentine Republic had in vain tried to place their bonds in the London market.

Telfener knew that if the London public could only be convinced of the honest intention to construct the road and not to sink the money in official intrigues, the bonds would at once sell at a high price. And so it was; the combination which he made to build the Tucuman-Cordoba railway made it easy to sell the bonds at a good rate in London, and with these bonds Telfener reimbursed himself, clearing within 34 months after his beginning nearly 20,000,000 francs, or $4,000,000! He then returned to Europe, bought two castles from the King of Italy, who became his devoted friend and admirer, and who was but too delighted to confer upon the handsome and successful young Italian a count's well-merited coronet.

In Paris he made a great sensation by his superb turnouts, magnificent horses, and the oriental splendor of his wealth. It was there that he saw Miss Hungerford, the pretty American girl, now his wife. The Queen Isabella introduced him to the American beauty. The queen, who is a passionate matchmaker, had already declined for the count a very rich but ugly heiress, but the count insisted that he would never marry for anything except love, and soon enough the matrimonial knot was tied.

Coming in this country a couple of years ago on a tour of pleasure, the count was immediately struck with the vast resources and splendid promise of Texas. He has not only devoted nearly a year of his life toward the construction of a railway from Victoria to the City of Mexico, which is already done for a distance of near a hundred miles, but has also bought several millions of acres of land, for which he has already been offered double the price he paid for it, but from which he expects to derive much larger sums.

He is a very quiet, unostentatious plain-spoken man. Bored by society, he hates receptions or formalities of any sort, and would rather have a quiet dinner with a friend at his hotel than attend the grandest dinner party that could be given him. Nobody ever sees him drive out in the park, and neither Mrs. Langtry nor Patti can lure him away from a polyglot business correspondence carried on by means of interpreters and translators in various languages.

The count, who has four superb palaces in Europe, one in Paris, one in Naples, and two in Rome, is yet completely unhappy when he is there in Europe, leading the life of a fashionable nabob. He requires the stimulus of our American business excitement, and is happier when engrossed in the thousand and one difficulties of railroad building in Texas than in the midst of a coterie of decorated lions and famous beauties in one of his Paris salons.

FIRES IN THEATRES.

We commend the following chapter to the Lord Mayor, Aldermen and Town Councillors of this good city of Buenos Aires:—

To the Editor of the *Times*

Sir,

EDITOR'S TABLE

The R.M.S. Guadiana sails this afternoon. Mail-bags close at 1 p.m.

Yesterday was the most stifling day of the season, and it told even on the thinnest and lankiest of our subscribers, although, we are glad to say, we have very few with "a lean and hungry look" on our lists, believing, with the Great Bard, that jolly, portly subscribers are preferable, and liking the old axiom, "laugh and grow fat." Nobody, fat or lean, however, laughed much yesterday. The north wind and roasting sun were no laughing matter. No wonder that our Rosario correspondent considers the weather extraordinary. The unfortunate maize-growers are in despair, as three quarters of the crop are considered lost from want of rain.

There was a large attendance yesterday at the Funeral Mass for the lamented Canon Fahey. The little Convent Chapel was crowded to its utmost capacity. Dean Dillon officiated, and at the close of the ceremonies the Rev. Mr. O'Reilly preached a short sermon for the occasion. Afterwards, a meeting was held upstairs in the new building, which is now all but finished, and reflects so much credit on Messrs Casey, T. Duggan and P. Bookey, also on Mr. Ryder, the talented architect, who has so charitably given his services free for the cause of the Orphanage. Mr. E. Casey was voted to the chair, with Mr. Thomas St. George Armstrong sec. Mr. T. Duggan, treasurer of the Building Fund, made a very clear statement of the accounts, showing that there is still $120,000 m/n to collect to pay for the building; but as there are 90 lists out in the camp that have yet to come in, it is thought the required sum will be attached to those lists. The account stands so:

Collected.....	$155,635 m/n
Amount paid for building.....	150,000
Balance in hand.....	$5,635 m/n
Still to pay for building.....	$120,000 m/n

Mr E Morgan asked the meeting to take some steps to get Father Fahey's remains interred on the premises. This called for some explanation. After a few remarks, it was resolved to call a general meeting previous to inaugurating the building, and at that meeting Mr. Morgan's motion would be discussed. The meeting then rose and those present adjourned to the 'patio' where the Orphans, numbering one hundred, sang beautifully in classes. The sight of so many truly, happy little children, well clothed, fed and educated, was indeed one of rare and pleasing satisfaction. Never before have we seen so many Orphans in the place, and they all looked so well clad, well fed, and well brought up that we may indeed say Providence has found for these little children parents in our community. We are not aware of any other nationality in this city or country that can point to such a soul-speaking monument of sterling good and worth.

The Nihilists have turned Holy Russia inside out, so much so that the very Chiefs of Police are turning thieves. In the district of Volhynia lately several persons occupying high social and official positions in the district received a number of threatening letters signed by "The Socialist Committee." One of these documents was addressed to the Governor himself, and threatened him with death unless he forwarded a sum of 3000 roubles to a place named by a certain day. A trustworthy person was sent to the appointed spot, which was carefully watched by a strong body of subordinate officials. At midnight the mysterious author of the letter made his appearance to receive the money, and was recognized by the watchers, to their utter bewilderment, as the chief of police. He was instantly arrested and remains in strict confinement. On examination it was found that his writing corresponded with that of the threatening letters.

We give news from Europe to the 1st inst. in another column. It is interesting enough. The English papers consider the manifesto of Napoleon the Fourth as a serious business, mainly so owing to the absurd timidity of the Government and the Republican party in general.

Messrs. Adolfo Bullrich & Co. will sell by auction on 16th March, several lots of prime land in the 1st and 7th Sections of National lands. These are a continuation of the fine camps described by 'Veritas,' in the *Standard* of 23d inst, being only a few leagues from Fortin Rosa, and are surrounded by proprietors such as Mr R. I. Runciman, J. Ross Duffield, Emilio Furt, Chute, Allen, Brooks, Brown, Casey, S. B. Gahan and others equally well known. This is a rare chance for any one of limited capital to become *owner* of a fine estancia for less outlay than the "yearly rent" paid for overstocked camps in the inside partidos. The camps will be sold "sin base." See advertising columns.

A mistake of a young hand in translating the word "Oeste" procured for us the following funny note yesterday:—

"To let, eight leagues of camp of the best quality, at 65 leagues distant *East* from the Capital, at a very low price.

"For more particulars apply at Calle Piedras 178."

"De Profundis, Atlantici,
26/3/'83.

"Dear *Standard*,

"We are anxious to know by whose authority above has been inserted, as we are not disposed to let at present.

"*Pisces & Co.*"

We have to thank the enterprising firm of Jacobsen & Co. (Libreria Europea) for sending us a nice present yesterday—the "Almanach de Gotha" for 1883. The illustrations are beautiful, the best of them being "Four Generations of German Emperors"—the venerable Emperor, the Crown Prince, his son, and the latter's infant son, whom the old man holds on his knee. It is a very pretty picture. The Queen of Servia is what an esthete would call "awfully pretty," and her husband the King is a very handsome man, and has as many orders on the breast of his coat as Moltke or Lord Wolseley, though we have our doubts as to whether he won them quite so well. President Arthur looks every inch a President. The Almanach is full of all kinds of valuable statistical information.

The steps taken by the French Government with the three foremost Orleans Princes in placing them on half-pay, is the first false move of the new French Cabinet, before it is three days in office. It is a most unjust proceeding, unless what some French papers say be true; viz, that when the row about the Princes began, the Duc d'Aumale said:—"I am a French General. Other Generals will support me. Let us see if they will dare to use force with me."

Estancieros who put up windmill pumps on their estancias have no idea of the great and constant supply of water they can secure; but they must be careful to learn how to work them. Out West, in the United States, lately, a pumping mill could not be stopped, the country for leagues around was inundated, and finally a gunboat had to sail in and demolish the windmill with her guns, otherwise the whole American Continent would have been submerged in a fortnight by this truly wonderful pump.

The meeting of the Rural Society on Monday night was of the "no quorum" order, and nothing was done.

There was nothing further yesterday about the fight in the Andes, or the 'ruidoso' question in Cordoba about Bishop Esquiu's death.

Flotow, the composer of Marta, is dead. So is Tamberlick, the great tenor.

It is rumoured that Mr. Dantas, Provincial Chief of Police, will shortly resign that post, and go to the Senate or to Congress as Deputy for Buenos Aires.

There is a push being made at last to erect the long-promised statue to the Argentine Nelson—Admiral Browne. The following distinguished gentlemen will receive and acknowledge subscriptions to the fund:—

Rear-Admiral Mariano Cordero, Comandante de Marina.
Commodore Bartolomé Cordero, do do
Dr. Mariano Demaria, Bolivar 96.
Delfin Huergo, Reconquista 177.
Ernesto Pellegrini, Rivadavia 109
Dean Patricio Dillon, Corrientes 718.
Don Emilio Perez, Victoria 267.
Estéban Adroguć, Piedad 413.
Santiago B. Gahan, Reconquista 78.
Antonio Astoul, Rivadavia 195.

Five suicides have been reported in the newspapers since Sunday. One of the victims was a well-to-do grocer of 74 years of age. Drink figures in all the cases.

A cigar man in Calle Cangallo, next the Cafe de Paris won the whole of the big prize (10,000 pats) in Monday's Lottery, with No. 8,111. Very strange

Dr. Ayer's
Compound Extract
OF
SARSAPARILLA

For the certain and radical cure of all those diseases which arise from

Impurity of the Blood.

It is very foolish—indeed it amounts to imbecility—to attempt experiments with inferior preparations composed of worthless drugs or of such indigenous plants or herbs whose ordinary effects are not confirmed by Medical Science, whilst the malady with which you are attacked is daily gaining ground is your system.

Put aside all thoughts of these and take instead and at once, a remedy guaranteed by actual experience and by the medical faculty all over the world, to be unquestionably the most efficacious in all Diseases of the Blood or Blood Poisoning.

DR AYER'S Compound Extract of Sarsaparilla is a well-known remedy of 40 years standing, and is prescribed by all eminent physicians throughout the world. Hundreds of thousands of sick and infirm persons have realized the benefits arising from the use of this truly honest medicine; and they are so many evidences of its incomparable virtues and of the good results obtained by their faithful use.

The Rev. Mr. Smith
Testimonial Fund.

At the General Meeting of St. Andrew's Presbyterian Church, Buenos Ayres, held on the 31st January, 1883, attention was called to the near approach of the time when the Rev. James Smith's official connection with the Church and people of Buenos Ayres would cease. The propriety of some manifestation being made by the Community on this occasion, to mark its appreciation of a life's work, having been mooted and unanimously recognised, it was resolved that such manifestation should assume the form of a pecuniary gift to the Rev. Gentleman, and a Committee was at the same time nominated with the view of carrying such resolution into effect.

In pursuance of this resolution, the Committee beg to inform the Community who sympathise with them in the matter, that Subscription Lists for signature will be found at the undermentioned places.

Other Lists will be forwarded to some of the outlying districts of Buenos Ayres and the Oriental Republic. Members residing at a distance, desirous of taking part in this manifestation, and who may not have access to any of these List-sheets, can obtain them upon application to the Honorary Secretary, David Methven jun., Calle Reconquista 89, who will also be ready to receive any particular subscription towards the same object up to March 15th, prox.

Accidents.

The importance of using only good kerosene cannot be too highly appreciated; witness the terrible accidents lately, such as the deaths of Mr Levey in this city, and Mr Dean in Navarro, and the great fire at the corner of Chacabuco and Europa, all caused by the bursting of lamps charged with inferior kerosene.

In the United States the sale of kerosene under 115º is severely punished, and in every country where the interests of the public are cared for, laws have been enacted regulating the quality of oil to be offered to the public.

Yellow kerosene is always impure and the strong-smelling stuff in general use here would be found under 100º if analysed; it is needless to add it is highly dangerous.

The only way to be perfectly safe is to use Kerosene 'Luxor,' guaranteed 140º fire test; it is white, entirely free from any disagreeable odour, gives twice the light, lasts one third longer, and is consequently as cheap as any kerosene in this market.

If through using a bad article when he can get a good one just as cheap, a man meets with an accident, he is scarcely to be pitied.

ON 'CHANGE.

February 27th, 1883

Patacon.....	25.01
Cedulas A.....	100½
Cedulas E.....	85
National Bank Shares....	105⅝

The market opened with activity this morning in spite of the oppressive heat in the hall. Several operations were reported in gold at 25.01 for cash. Condors and sovereigns continue in demand for remittance up rivers, but the requirements of the market are very limited. The exchange market may be considered to be at a complete stand-still; rates are quoted at 49⅜-9/16 on London, and a few bills were passed this morning. No business is reported in francs. Discounts shew no change, and brokers complain of the restriction put on by the banks. Plenty of money is offering on 'Change on stocks, but less money has been taken up for speculation than on the eve of former liquidations.

Cedulas maintain their normal features, but operations shew a much more active market, and over 200,000 changed hands this morning during official hours. All are expecting news from Europe; Mr. Llambi Campbell, President of the Mortgage Bank, is in London by this time, and all anticipate that his mission will be crowned with success. If Dr. Campbell succeeds in the London market, we may look forward to a general rise in all 6 o/o and 5'o/o stocks on the Bolsa; the heavy drawings of Series A are already attracting much attention, and many holders of the 8 o/o stock are letting go in order to secure 6 o/o paper. Series E, meantime, shews no material change and rates are maintained at 85 for cash, and 84⅞ to 85 for the end of the month—about 15,000 changed hands. A few thousand Series A were sold at 100½, which shews a fall of ⅛ since last operations. Operations in Series E for to-morrow were very active; over 100,000 were sold at 84⅞ and 85; the market closed at 85. Operations for the end of March were larger than usual; 85,000 were sold at 85½-⅝. The liquidation of Cedulas promises to be a large business, as sales during the month have been important. The market firm at the closing rate of official hours.

Operations in National Bank Shares were very important this morning and close on 6,500 were sold. Heavy sales were made for the end of next month, with a view to depress the market, and prices closed somewhat weaker than at opening rates. Only one hundred Shares were sold for cash at 105⅞, whilst over 3,000 changed hands for to-morrow at rates ranging between 106½ and 105⅝; the market closed with many buyers at the closing rate. It is generally opined that the parties who had overbought sold to-day; meantime, those who sold short, seeing the weakness of the stock held back in hopes of securing cheaper rates at a late hour or to-morrow. Speculation for the end of next month ruled very brisk; fifteen hundred Shares were sold ex-dividend at 102½ to 102, closing rate; over 1,600 were sold cum dividend at 107½ to 106⅜; the market closed at 107½. The Bulls expect to carry the day and look forward to higher prices to-morrow. With regard to the new proposal made to the Board of the National Bank, it was rumoured this morning that the offer was made to take over the Bonds held by the Bank at a reserved rate. We chronicle the rumour without giving same any importance.

The entire market is talking of the sale of Lincoln lands yesterday, at the Provincial Land Office. The parties who have been buying lands of late are the best guarantee of the bona-fide nature of the purchasers; estancieros of experience who know every inch of the land offered, are the men who whip up the lands in Lincoln at $800,000 m/c., as happened last year, and at $594,000 m/c per league, as was the case yesterday. Lands in Lincoln have been steadily rising in value, and the late sales corroborate what we have often stated, that there is no better investment in this market than land bought for stocking purposes. Every Government sale has been a revelation to the market, and we hear that the Provincial Government possesses yet 500 square leagues of land, which will be slowly offered to the market.

Billions of putried fish are now floating under the viaduct of the Ensenada Railway; all these fishes come from the Boca, drove along by the current of the Riachuelo and washed to the beach by the wind and tide. The linen of the inhabitants of Buenos Aires is washed in these waters, but the smell of the fish is so strong that the strong nerves of the washerwoman have have not been able to withstand the infectious stench. The stench will soon be perceptible under the balconies of the Municipality, and then perhaps we may look forward to some strong measures. Messrs Domingo Parody, Domingo Salvarezza and Domingo Berruto have been appointed to study the best steps to put a stop to the nuisance.

Dr. Romero, the talented Minister of National Finance, has addressed a note to all the bank-managers of the Republic, requesting them to withdraw the small notes in circulation and to issue the new silver and copper coin of the Mint. Two hundred thousand patacons in pieces of $0.50 will be handed immediately to the Provincial Bank, and other banking establishments will be favored with a proportionate amount of coin. The people do not care much for coin; it is remarkable how the notes of the National Bank are circulating at present; everybody in the market has these notes now, and many shareholders of the National Bank will pay in no other paper than that of this Bank. The small amounts of National coin, which were thrown on the market last month, have disappeared.

Novillos are selling in Bragado at $350 m/c per head, which is a very good price. The animals are very fat and in splendid condition. It costs $50 m/c to bring the animals to market, taking into due consideration "boletos", "guias", municipal taxes, &c. Thus an animal from Bragado costs $400 m/c put on the killing ground. Letters from estancias in Bragado state that the season has been most satisfactory.

The sales at the ring were as follows:—
Cedulas—
For cash A 20,000 at 100¼
For cash E [illegible],000 at 85
For [illegible]eb. 28th E 104,000 at 84⅛-85-85⅛
For March 31st E 85,000 at 85⅛-⅜-¼
Sales, 224,000

National Bank Shares—
For cash 100 at 105⅝
For Feb. 28th 3,100 at 106¼-⅛-106-105⅝-½
For March 31st 1,500 102⅜-½-102 ex div.
Do 1,650 at 107½-107-106-107¼ cum div.
Sales, 6,350

The following sales of sheep were reported to-day:—
4000 'al corte' in Las Flores at 25 m/c each.
2000 do do at 30 m/c; buyer of both lots Mr J. Arambura.

All the fat capones of three estancias in Pergamino are reported sold at 38 m/c.

Some fine wools were sold in the South Plaza to-day at 100 m/c per arrobe.

Four leagues of Provincial lands, situated in the Fourth Section, comprising lot No. 98 have been sold for 390,000 m/c. Buyer an Italian.

Mr. D Jordan has sold two lots of land of ½ league each, in Las Tunas, outside 9 de Julio, at the rate of 110 m/c per hectarea.

Telegrams from Montevideo received to-day, announce the following sales:—
5000 salted ox hides from Cibils, of 68 lbs at 77¼.
2000 do cow hides, from Guaviyu, at 72.
8000 arrobes of wool at 33¾.
6000 do with bellies at 27½ and 26½.

The hide market rules very firm, and the saladeros of this province are slaughtering very little. The slaughter up to date does not reach 100,000 head, and a scarcity of fat animals is remarked.

1500 salted potro hides from L. Repetto's saladero were reported sold yesterday at 21½ rls. gold; weight 34 lbs.

Three hundred and fifty thousand pounds of potatoes arrived in the Boca on Sunday and Monday.

Twenty thousand Cedulas were sold during afterhours for cash at 84⅞. There were very many sellers for to-morrow at 84⅞, but nobody would buy. The market shews a decidedly weak feeling during afterhours. To-morrow's 'vencimientos' amount to $1,301,000. About one thousand National Bank Shares were sold. The shares of a certain party, who declared himself unable to meet differences to-morrow, were sold at 105½ for to-morrow. The failure in question is for an insignificant amount and little importance is attached to it, although it is much regretted. The market grew firmer later on and operations closed at 105½, buyers for to-morrow. The "vencimientos" of shares during the month amount to 42,670 shares. The following comparative table of "vencimientos" for January and this month may be found interesting:—

	Series E.	Shares.
January.....	1,467,000	48,788
February.....	1,301,000	42,670

Speculation during the month has not been so active as during January; the market, in fact, is becoming more limited every month. Since operations shew a steady decline since the disastrous September liquidation. National Bank Shares are falling into the hands of a non-speculative public, and the fact want of is considered a very healthy sign. Syndicate to last month, a leading operator liquidated fresh into the National Shares; to-day operators had only as the market of 100 and 300 Shares to liquidate her way gas no longer a Share-King in the market, and speculation is at a discount. The public stock no longer obeys speculative manœuvres the Shares of the Bank stand on their intrinsic value, and with able management we may see the stock quoted as high as that of any of the private banks.

A telegram from Maldonado announces that a floating hulk has been discovered in the channel between Lobos and the coast; shipcaptains might take note of its presence, as it imperils navigation in the channel.

The *Nacional* announced to-day that Messrs Alkaine and Acosta had made an important proposal to the Board of the National Bank. Our colleague states that its information concerning the proposal is "favorable", which may well astonish the market, as everything our colleague publishes about the Bank is generally "unfavorable". This proposal may be the clue to the many rumors afloat in the Bolsa about the sale of the National Bonds. The report attracted much notice.

Governor Rocha has fixed the 15th prox. for the inauguration of the line of the Great Southern Railway from Azul to the town of Olavarria. This is the very best of news to the Russian colonists.

Remataremos a la mas alta postura y dinero de contado por orden terminante de su propietario.

Un area de campo situada en el Partido del Azul, a pocas leguas del Pueblo y a una hora de camino de la Estacion del Ferro Carril del Sur y de once a doce horas de la Capital; compuesta de una legua cuadrada mas 939 milesimos de otra.

Estos campos forman parte de la gran Estancia que perteneció al finado General Don Prudencio Ortiz de Rosas y eran reputados como la flor de los campos del Azul, y el lote que ofrecemos lo mejor, pues es cruzado por el arroyo la Corina y alli existe la poblacion del mismo nombre. En prueba de ello es que este campo esta arrendado desde hace 5 años por $0,000 ⅌ al año venciendo al contrato el 1 de Abril del corriente año y el actual arrendatario estamos seguros no lo dejara por pesos $00,000.

A mas del arroyo la Corina que atraviesa el campo, tiene dos lagunas mas.

Los pastos en su mayor parte son tiernos y superiores pues estan poblados estos campos hace mas de 35 años.

La entrega se hara en uno o dos lotes con la infima base de $500,000 legua cuadrada precio sumamente bajo, pues campos iguales acaban de venderse en Ayacucho por nosotros mismos a $1,200,000 leguas.

El Jueves 15 de Marzo
A las 2 p.m.

Remataremos a la mas alta postura y sin limitacion de ninguna clase, los mas afamados campos de la Provincia de Santa Fe conocidos por Loreto distantes unicamente 25 leguas de Pergamino, 6 de la colonia Iriondo, 10 de la colonia Alvear (La Teodolina) 13 de la Estacion Tortugas del Ferro Carril Central Argentino, 16 de la Cañada de Gomez, Estacion del mismo Ferro Carril y entre el Ferro Carril de Clark, el proyectado ramal del F. C. del O. desde el Pergamino al Rio 4° y el Oeste Santafesino. Estos campos lindan con los famosos y conocidos del Venado Tuerto y con estancias, como la de los Sres Ostendorp y Ca., Diego Alvear, heredero de Armstrong y otros.

Los campos que acaba de vender el Gobierno de la Provincia a 400,000 ⅌ estan mas distantes de la Capital que estos que ofrecemos en venta.

Ademas con la rapidez que se esten construyendo los Ferro Carriles y ramales en la Republica demuestran claramente que en un corto tiempo la poblacion va a estenderse extraordinariamente y entonces toda la propiedad rural tiene que triplicar en valor, de manera que cuando llegue a venderse el ultimo plazo el comprador se encontrara con una propiedad valiosa.

La calidad del campo se garante igual al Venado Tuerto por lo tanto creemos inutil entrar en mayores descripciones sobre el terreno, sus pastos etc, ademas la persona que quiera ver y examinarlos puede toma la Galera que va del Pergamino al Rinojo conriendo por la pasage gratis al Sr D. Eduardo Casey Reconquista num. 80.

El campo sera dividido en lotes de ½ (media) legua teniendo el comprador el derecho de tomar cuatro leguas por el mismo precio.

Todos los lotes seran vendidos sin reserva de ninguna clase al mas alto postor y el pago se hara una cuarta parte al contado y el resto en cuatro anualidades con el 7 o|o de interes. Los planos de estos campos podran obtenerse del 20 del corriente Febrero en adelante ocurriendo a casa del Sr D. Eduardo Casey num. 80, o a nuestra casa Alsina 78.

NOTA—No olvidarse que el remate se efectuara aqui en la Capital Calle Alsina 78.

OTRA NOTA IMPORTANTE—En caso que varios compren un lote, se les escriturara separadamente a cada comprador hasta cien cuadras.

Todas las existencias de su establecimiento el 'Quemado' situado en el Partido Alvear, distante 3 leguas del pueblo del mismo nombre 6 del Saladillo, 14 de las Flores y 40 leguas de la Capital.

El remate dara principio con el:

ARRENDAMIENTO DEL CAMPO, compuesto de 4 leguas cuadradas perfectamente alambradas, teniendo el campo 50 cuadras de ancho de Este a Oeste y 124 cuadras de Norte a Sur; lindando por el N. con el arroyo de Las Flores, por el O. campos de Sarmiento y por el S. y E. con el Establecimiento 9 de Julio de Portuguez hoy propiedad de Rigles. En el lado Norte existe el arroyo El Dulce con abundante aguada que raras veces se seca, del lado Sud la magnifica laguna permanente La Pastora y a mas dos jagüeles en perfecto estado de servicio.

Poblaciones: Una linda casa en forma de Chalet con 4 piezas, cuarto para sirviente, despensa, cuarto de baño, cocina, etc, casa del mayordomo de material, techo de teja, un magnifico galpon de material, techo de fierro para la esquila, cachera, cuarto de peones, cocina etc, y 16 puestos al rumbo de material.

Remataremos a la mas alta postura y dinero de contado, por orden terminante de su dueño, los campos arriba mencionados, situados en la Secciones III y IX de territorios Nacionales letras D. y C. numeros 11, 16 y 2.

El area total se compone de 10 leguas kilometricas, que pueden facilmente subdivirse en 2 fracciones, una de 6 y la otra de 4 leguas y si los interesados los desean en lotes de dos leguas.

Esta seccion es una de las mas pobladas, debido a la bondad de sus pastos y calidad de sus tierras, adecuados para la cria del ganado vacuno y lanar.

Este campo dista 3 leguas del pueblo General Acha, donde existen fuerzas Nacionales, y sabido es la importancia que tiene la inmediacion de un pueblo en estas alturas para que entremos aqui a demostrarlo.

Al costado mismo esta un Establecimiento, parte alambrado, del Sr. D Augusto Escandy, poblado por el señor Capdeville, con 2,500 vacas, 500 yeguas, y 3,000 ovejas y los otros linderos son:

Augusto Escandy, Simon, Obligado, Hurtado y Martinez A. Meano y otros.

Sin contar un numero crecido de nuevos pobladores que estan esperando que llueva para llevar las haciendas que tienen ya compradas.

Creemos por demas llamar la atencion de los interesados sobre la importancia que tendran estos campos una vez terminado la linea del Ferro Carril del Sud a Bahia Blanca.

Demostradas todas las ventajas solo nos queda decir que la base de ps. 30,000 ⅌ por legua fijada para la venta es sumamente baja, en vista de las recientes ventas que se han hecho de campos situados mucho mas afuera.

Los interesados pueden ocurrir a nuestra casa Alsina 78 para tomar mayores datos sobre estos campos.

Remataremos a la mas alta postura y dinero de contado, por orden terminante de sus propietarios y liquidacion entre socios, los campos arriba indicados, cuyos pormenores son los siguientes.

SECCION 1° LOTE N. 21 de la fraccion B linda por el Oeste con campos del conocido commerciante Sr D R J Runciman al Norte con el Sr S. Ross Duffield, gerente del nuevo Banco Ingles, al Este con el Sr. D Emilio Furt y al Sud con el Sr D. J. R. Brooks. La calidad del campo es sobresaliente, con aguada permanente, arboles en el mismo campo. Se presta admirablemente para la cria de ganado vacuno y lanar por tener mucho pasto tierno trevolares etc.

LOTE num. 2 de la fraccion D lindando por el Oeste y Sud con campos del Sr D. Eduardo Casey, al Norte con el Sr. D Marcelino Ugarte y al Este con el Sr. D. J. Allan es en un todo, igual al lote anterior, magnificos montes y mucho pasto fino.

Estas dos fracciones se venderan en fracciones de una legua y al gusto de los compradores.

SECCION 7° LOTES num. 6 y 15 de la fraccion B lindan con la seccion 1° con los Sres Eujenio Mataldi, Juan Peres, otras personas conocidas. La calidad de estos campos es excelente, aproposito para la cria de toda clase de ganado.

Todos estos campos no estan muy distantes de los que el Gobierno de la Provincia acaba de vender en la Seccion XII a razon de 480,000 ⅌ la legua.

La poblacion se esta extendiendo rapidamente hacia este lado y con los Ferros Carriles ya en construccion van a tomar muy pronto un valor incalculable.

Sin Base!

Las personas que quieran invertir su dinero no encontrarian una ocasion mas favorable, y deben tomar todos los datos respecto a estos campos, mandarlos ver, etc., estamos seguros que no de'aran de comprar algun lote.

Aviso Municipal
LICITACION
Construccion de la Capilla para el Asilo de Mendigos

La Seccion de Obras Publicas recibira propuestas cerradas el Lunes 26 de Febrero, a las dos de la tarde, para la construccion de la Capilla del Asilo de Mendigos, con sujecion al pliego de condiciones que existe en la oficina de Ingenieros Municipales a disposicion de los interesados.

Las propuestas deberan presentarse en papel sellado de 5 pf. y acompañarse un certificado de la Tesoreria en el que conste el deposito de $200 pf. en garantia de que el contrato sera firmado, cuyo suma quedara a favor de la corporacion, si aquel cuya propuesta fuese aceptada no se presentara a los tres dias de hacerseles saber.

En las propuestas se indicara el domicilio del proponente, y no seran tomadas en consideracion las que no se ajusten estrictamente a las bases de licitacion.

No obstante el formulario indicado en el pliego de condiciones, los precios se determinaran en moneda nacional, señalandose al mismo tiempo al plazo dentro del cual deben quedar terminadas las obras.

El proponente cuya propuesta fuese aceptada depositara ademas en el Banco Nacional, a la orden del Sr Presidente en garantia del cumplimiento del contrato, mil pesos fuertes en Cedulas Hipotecarias, billetes del Tesoro o moneda corriente.

Las cuestiones que puedan suscitarse seran resueltas por la Corporacion administrativamente, salvo el recurso que da su ley organica, y se reserva ella el derecho de aceptar la propuesta que considere mas ventajosa o no aceptar ninguna.
